**INFORMED CONSENT**

Hi, my name is \_\_\_\_\_. I am a researcher working with StatView International on a study of artisanal mining across Forecariah, Coyah and Kindia. I would like to ask you some questions to better understand these issues in your village. Your participation is entirely voluntary. If you agree to participate, our discussion will last for around 60 minutes. Please rest assured that your answers will remain completely confidential. We will not provide your name and answers to anyone. Do not feel obligated to answer any question that you are not comfortable with and do not hesitate to ask me for a clarification if you think that a question is a bit difficult or unclear. You may stop participating at any time. Your responses will be summed together with those of roughly 2000 other households in Guinea and general averages from analysis will be reported. If you have questions about this survey, you may contact the Research Manager in Guinea, Aliou Barry. His contact information is X.

We would be very thankful for your participation. Can we begin?

If you have chosen not to participate, can you please tell me why?	(Text)
